WORK EXPERIENCE

Frontend (React.js) Developer
Simmi Foundation

10/2022 - 1/2023

Achievements/Tasks
- Demonstrated expertise in developing the frontend of Simmi Foundation's official website, encompassing dynamic pages for both the admin panel and user panel. Utilized a wide range of technologies including React.js, Bootstrap 5, and CSS to ensure a seamless user experience
- Spearheaded the design and implementation of the frontend for Simmi Foundation's website, leveraging the power of React.js and other cutting-edge technologies. Successfully transformed concepts into a visually appealing and interactive website, contributing to an enhanced user interface.
- Engineered an intuitive and user-friendly interface for Simmi Foundation's website, elevating the overall user experience. Employed innovative design techniques and best practices to optimize usability, resulting in improved engagement and satisfaction among website visitors.
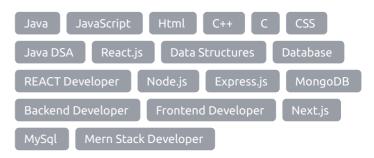

Web developer
TWOWAITS

11/2021 - 12/2021

Achievements/Tasks
- -It' s a four week internship and we have to complete the task
- During this internship I created UI using bootstrap 5 and CSS and different framework
- And we have to build a gym website from a scratch

SKILLS

`Java` `JavaScript` `Html` `C++` `C` `CSS` `Java DSA` `React.js` `Data Structures` `Database` `REACT Developer` `Node.js` `Express.js` `MongoDB` `Backend Developer` `Frontend Developer` `Next.js` `MySql` `Mern Stack Developer`

PERSONAL PROJECTS

E-commerce Website
- Full-stack web developer experienced in payment integration, authentication, password encryption, and admin/user dashboard creation. Skilled in database management, API development, and UI design. Committed to delivering efficient and scalable web applications.

Html Canvas Game
- It' s simple game 2d shooting game to enhance my javascript, CSS skills

E-Learning API
- I spearheaded the development of Course Bundler, an e-learning platform API using Express, Node.js, and MongoDB. Focusing on backend development, database management, and authentication, I built a robust and secure system that enables seamless course management, user authentication, and data storage for a dynamic e-learning experience.

Ipl stats scrapper
- Developed personal project "IPL Stats Scrapper" using Puppeteer to extract data from ESPN website. Scraped IPL match stats, player info, and team performance. Stored data in PDF or Excel for analysis. Demonstrated web scraping skills and data manipulation proficiency.

Chat App
- Created ChatApp using React, Firebase, and Chakra UI for real-time messaging. Showcased frontend development, database integration, and UI design skills.

News app
- Developed a React-based news website that utilizes an API to fetch and display news articles. Demonstrated proficiency in frontend development and API integration.

To do App
- Developed a MERN stack web application, a todo website with authentication support. Implemented CRUD functionality for managing notes and to-do tasks. Demonstrated proficiency in React.js and backend development.
